Joke of the Month:
80's Hair!
The wind doesn't stand a chance!
Hungry and tired one night, Mike wanted a pizza, but getting a pizza delivered was a pain in the neck. He didn’t want to call a million restaurants to see what was open. So, as an avid coder, he created Grubhub in his spare bedroom to figure out who delivered to his apartment. Then, armed with a $140 check from his first customer and ignoring his crushing college debt, he quit his job. Over the next decade, Mike grew his little delivery guide into the world’s premier online ordering website. In doing so, he entered the company of an elite few entrepreneurs to take a startup from an idea all the way to an IPO.
