PATTY'S PICK

Tapeworm is a debut body-horror vampire novel about a group of friends trapped during a desert retreat in Superstition, California. Seeking to mend his broken marriage, Victor is instead targeted by a seductive, hungry eldritch force that feeds on the group's deepest, repressed desires and identities. For fans of Stephen Graham Jones and Rachel Harrison, this unforgettable nightmare explores the horrifying price of finally breaking free.

OCTOBER JOKES

Why didn't the skeleton cross the road?

Because he ain't got guts

Why are ghosts such bad liars?

Because you can see right through them!
